

T-Pulse for Workplace Security

Arming Industrial Security Teams with
Real-time Actionable Intelligence

Sprawling industrial premises make it difficult for organizations to monitor entire facilities around the clock, causing them to fall victim to unwarranted intrusions, theft, sabotage, and tampering. This can lead to:

Reputational Damages

Productivity Losses

Accidents & Disruptions

Increased Premiums

Asset Losses

Monetary Losses

Ensure 360° Workplace Security with T-Pulse's AI Assistants

Security Assistant

Track characters, objects, and other items of interest with ease.

Privacy Assistant

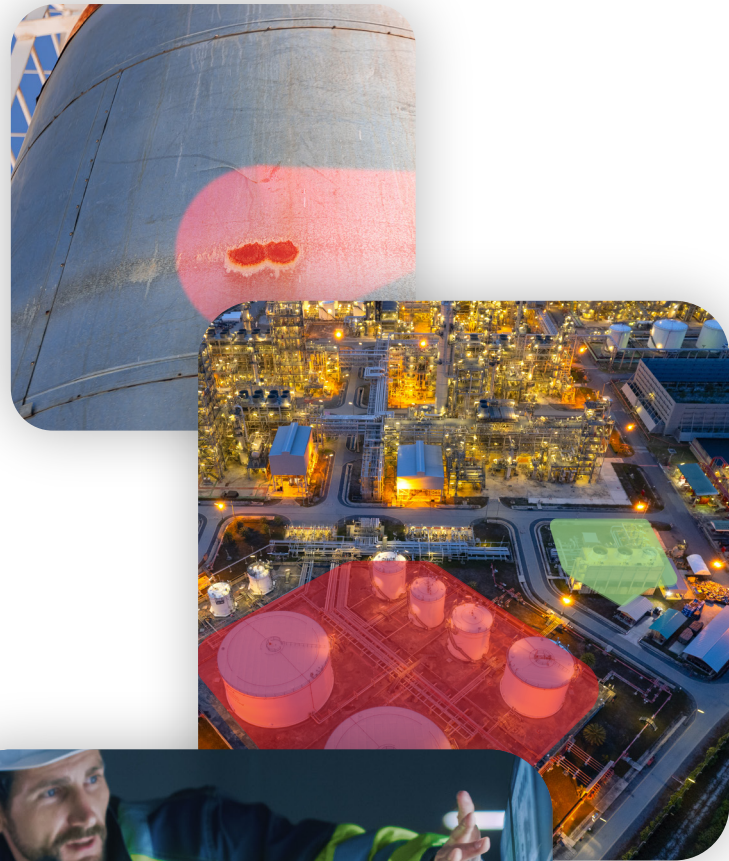

Ensure individual privacy without compromising workplace security.

Enjoy 100% Reportability of Intrusions with T-Pulse™

Security risks can be effectively mitigated by empowering security personnel with data-backed intelligence.

T-Pulse™ for Workplace Security ensures a safe working environment and holistic protection of your industrial perimeter with AI-guided surveillance.

T-Pulse's AI models leverage existing visual and sensory sources and deliver actionable insights for a real-time resolution of potential security risks. Sporting a state-of-the-art dynamic redaction system, T-Pulse tags threat indications without compromising individual privacy.
